How Premium is priced: Premium Membership is the Standard Membership (\$99/month) plus a personalized company webpage (\$69/month, reduced to \$59/month – \$708 per year – on the annual plan). The one-time setup fee of \$295 per entity applies to both plans. A primary business type is selected at registration/checkout for each physical location or facility.

Membership details

Standard Membership

Your membership includes information about your company within the Skipdash.com Construction Materials Membership. Your company or production facility will be listed on the Skipdash.com Map and locator page, and presented to visitors within at least one business category you select, within their search area.

Business types include Asphalt Paving Producer (manufacturer), Aggregate Crushed Stone, Sand and Gravel Mine, Concrete Ready Mix Producer, or "Other" – the type that best describes your operation, such as a Trucking Company or Equipment Rental Company. You select a business type during registration for each registered entity or facility, and may add a second or additional business types so your business also appears in those visitor searches.

Fee structure: A one-time setup fee of \$295.00 applies to each entity or company (not each facility). You then choose a monthly plan (billed quarterly) or an annual plan, with at least one primary business type selected for each physical location or member facility. Up to 5 business or service types are included in one monthly fee for each facility – for example, "Aggregate Crushed Stone Producer" as the primary type, plus "Commercial Paving Contractor" or "Concrete Crushing Operation". The Standard monthly plan is \$99.00/month. The annual plan is a single payment of \$1,068.00 (12 × \$89.00), saving \$120.00 per year.

How visitors find you: A visitor's search results are driven primarily by business type and location. If you want to appear in search results for more than one business type, select each of them. Business type and proximity are key factors in a visitor's search results for a qualified member, but they are not the only factors.

Premium Membership

Premium Membership combines the Standard Membership with a personalized, company-branded webpage on Skipdash.com where visitors can learn more about your services or products. Your webpage can contain personalized content, an approved company picture and your company logo – and estimate requests for your services may flow from this page directly to your company.

Fee structure: The webpage costs \$69.00/month, reduced to \$59.00/month (\$708.00 per year) with a one-time annual payment. This is in addition to the Standard Membership fee and the setup fee. Premium Membership therefore totals \$168.00/month (\$99.00 Standard + \$69.00 webpage), or \$2,016.00 per year if paid monthly. Paid once annually, Premium Membership is \$1,776.00, a saving of \$240.00 per year.

Special Badges: Preferred Business

A Skipdash.com "Preferred Business" is by invitation only and grants permission to use the Skipdash.com mark(s) associated with a Skipdash.com Preferred Business, such as a specially awarded badge or icon displayed within the Skipdash.com Membership Network. This is a designation, not a membership type, and should not be confused with Premium Membership. A Premium member may earn and display Preferred Business status only if awarded by Skipdash.com.

Publicly displayed signs (on vehicles or elsewhere) may not be displayed unless authorized and provided by Skipdash.com. A Premium member may display a future, officially approved "qualified contractor" vehicle sign, which will be different from the Preferred Business badge. A Standard or Premium Membership listing within the Skipdash.com Membership Network represents the status of a "qualified contractor" in good standing for a given year.

Note: Skipdash.com reserves the right to create other badges or marks in the future that may be awarded to contractor members within the Skipdash.com Industry Networks, and which may change the rank and weight of contractors in visitor search results. These badges, or discretionary weighting of search results, may not be available to all contractors. Skipdash.com reserves the right to award a Preferred Business a higher weight or status based on non-publicly defined criteria, similar to the methods used by major search engines such as Google or Bing.
